WHAT'S NEW IN JULY

POSTED BY CATHY AT 09:36

Wow how is it suddenly July? I must admit this year seems to be flying by and I can't believe people are talking about Christmas already. This month I bring to you lots more new products that are now available to buy and I would love it if you would link any products up that you have tried that are new on the market. I will comment on all added and I am looking forward to seeing your new discoveries and sharing the love.

Spoilt Pig Bacon

Our house is full of bacon lovers and this Spoilt Pig bacon is the first of its kind to be raised without antibiotics and is supported by the UK's alliance to save our antibiotics, with lots of illnesses becoming immune to antibiotics I think this is such an important step. The taste of the bacon is no way impaired, in fact it is delicious and comes in smoked or unsmoked, whichever you prefer. Spoilt Pig bacon is hand rubbed with their own sea salt cure, it really is delicious and perfect for my mid morning BLT. You can buy Spoilt Pig from all leading supermarkets.

Well that about sums it up for this month. I can't wait to see what next month holds. The linkie will be open until the last day of July and a new one for August around the 7th of every month.
